THE PANIC ROOM

ONLINE ESCAPE ROOMS

EASY TEAM BUILDING ACTIVITIES FOR REMOTE EMPLOYEES DURING COVID-19

With the sudden and unwelcome arrival of Covid-19 in our lives, our workforces have quickly had to adapt to new ways of working; with the majority of us now working from Home for the foreseeable future.

Businesses now need to find an effective solution to keep staff focused and engaged whilst working from home, as well as keeping wellness and the mental health of their colleagues at the forefront.

WHAT IS REMOTE TEAM BUILDING?

When it comes to working in an office, it's quite easy for employees to collaborate and work together to help push a business forward. We can communicate easily, discuss ideas and just walk across an office to approach a colleague. But when it comes to employees working from home, it can be hard to keep a team engaged and collaborating effectively with other team members.

SO HOW CAN YOU BRIDGE THE VIRTUAL GAP AND BRING YOUR TEAM TOGETHER?

The best solution to help establish good working relationships whilst employees are working from home is to introduce remote team activities to help keep everyone proactive, build viable relationships and provide an atmosphere of trust and support.

WHAT DOES THE PANIC ROOM OFFER?

We currently have **17** excellent and highly rated online escape room experiences available.
CSI: Mafia Murders and **CSI: Grounded** are actually online versions of our existing mobile games that we take to companies across the UK for team building so they are inherently suited for team building. We have a whole wide range of other games that have been specifically designed during lockdown to provide the best team-building experience while having a huge variety to choose from.

Our CSI Games in particular feature both escape room and murder mystery elements which work well for team building as it promotes communication and attention to detail.

HOW DOES IT WORK?

Our Online Escape Rooms are web-based and accessible from PC, Tablets or Smartphones. You and your team will be solving your way through a series of puzzles, gradually unlocking evidence and solving the murder mystery.

Once you have purchased you will receive your companies license info on a PDF, this gives you 2 links and 2 passwords that your teams can use to access the game.

Your team will need to be split into groups of up to 8 players per team. We recommend connecting via a video app (E.g.: Zoom, Microsoft Teams, etc) to communicate.

Each team can play through the game at the same time, or you can stagger your sessions over a longer period of time. Your login will not expire. You could even make it a challenge to see what team can solve the mystery the quickest!

WHEN CAN WE PLAY AND HOW DO WE GET CLUES?

Inside the game itself, there are clue buttons available so that if teams get stuck on the puzzles there is always help available. Our clue buttons offer increasingly more helpful hints to assist with teams progressing through the game. Because of this, it means our games are able to be played globally 24/7 without any worries of being completely stuck.

If you do require any assistance or have any questions though, our excellent customer support team is also available via email or live chat 7 days a week from 10 am - 10 pm UK time, so if you have any questions or queries we are here to help!

SETTING UP GUIDE

TEAM BUILDING INSTRUCTIONS:

TEAMS
You will need to split your staff/players into smaller groups of about 5-8 players per team.

COMMUNICATION
There is no inbuilt system to allow for flexibility on company preference. We recommend connecting via a video app (E.g.: Zoom, Microsoft Teams, etc) to communicate however it is completely up to you.

PLAYING
Each team can play through the game at the same time, or you can stagger your sessions for them to do it at different times. There is no timer so all teams can play till completion. However if you would like to set timer rules, make sure to make this clear to them before they begin.

EXPIRY
Your login will not expire and can be used any time after purchase. Once the uses on your license have been used up, no further employees will be able to login to the game.

DEVICES
Our games can be played on PC/Tablet/Phone however we recommend using a PC/Laptop for the best experience.

PREPARATION
We recommend each player has a pen and paper to hand to make notes during the game. We also recommend making sure that players have a stable internet connection and their device is charged.

LOGGING IN
For your license you will receive 2 links & logins as part of it. This information will need to be sent to the whole of your team.
Link 1 - Instructions & Intro: This is their introduction to the game, giving them info on how to play, how to get clues and the intro video setting up the story of the game.
Link 2 - The Game: This will grant them access to the game itself, it can be advised to give this out once you are ready for your team to play.

SECURITY & WHITELISTING
We understand that security is a high priority for many, because of there are some domains used as part of the game that will need to be temporarily whitelisted to ensure optimal gameplay incase your IT department has restrictions in place:
Youtube.com / Vimeo.com , Yumpu.com & Itch.io

If you require any technical/customer support, our team are available 7 days a week via live chat or email at - info@thepanicroomonline.net
